

Drop dead gorgeous and talented pony with stunning paces

Chestnut – Gelding- 14.2 hands – 2012

Heidehof's Don Diego x Wester Aikema's Adios

This pony has the paces to match his stunning looks. He has been impeccably trained and is established at Elementary level with excellent lateral work and simple changes. He has been successfully competed British Dressage and is easy and straight forward to load and travel. He is super in the stable and likes nothing more than spending quality time with his human.

Adi is currently owned by a mature lady who bought him as a 5 yr old and absolutely adores him, but sadly her health has forced this very sad parting. He is clever and trainable but isn't always the complete saint he is most of the time. He is great fun and likes nothing more than to pop a fence or go for a hack. He still has so much untapped potential in the dressage arena. He would suit a rider who is looking for a pony to compete through the levels of dressage, win rugs and sashes and hold their own at the higher levels of dressage amongst the flashy horses.
